# PORTFOLIO

# Who We Are?

TForce is Saudi-based inclusive IT services provider, we have cumulative years of experience in the IT market thanks to our competent and dedicated IT consultants who paved the way for us to build a solid pillar in this field, enabled us to offer premium services and build a diversified portfolio. We trace the latest cutting-edge technologies and foster top notch innovative solutions that will give you a distinctive privilege and help you manage your business smoothly so, you can stand ahead of the competition and invade the doors of success with high pace.

# OUR HISTORY

TForce has been founded on customers centric pillars, where their needs are our utmost priority and come on our top list preceding the organisations claims.

When it comes to the provision of the SD-WAN and SAP AMC, we are proud that we have been the first leaders in the KSA region to adopt and conduct such services.

In response to the spread of Covid-19, we did our best to cope with the tense period of the pandemic by establishing a SAP Offshore centre in Chennai, India and acquired BestAPPS Saudi as an authorised VAR for SAP partnership.

## 2016 Establishment

## 2018 1st provider IN KSA

## 2020 COVID 19

## 2017 Footprint

Our first footmark was set in the KSA market where we initiated the conduction of SAP Consulting Services and SD-WAN solutions.

## 2019 1st implemetation

TForcre conducted SD-WAN services and SAP solutions to one of the esteemed petrochemical groups in Jubail, we also served some renowned companies in the recycling and manufacturing sectors located in KSA.

## 2021 - 2022 Expansion

We are witnessing a massive growth on a broad scale, as we keen on keeping up pace with the latest cutting-edge solutions which has been manifested through our delivered projects.

# Our Vision

We intend to provide our customers with the best solution possible with a smart, innovative approach. By maintaining highest level professionalism with loyalty and friendly environs with the clients.

# Our Mission

Our mission is to provide cost effective solutions to the clients with the advancement in the technology. To provide sustenance in fulfilling the needs of the clients this helps them affluence in their business. To become well-known name throughout the globe.
